STUDENTS' CONFERENCE

Jožef Stefan International Postgraduate School
and Young Researchers' Day CMBO

19 and 20 April

Using text mining to maintain translation memories

Andraž Repar,
International Postgraduate School and Iolar

Poster number: 40

STUDENTS' CONFERENCE

Jožef Stefan International Postgraduate School
and Young Researchers' Day CMBO

19 and 20 April

- **Translation memory** – database of translations
- In use since **1990s** – large quantities
- Sentence-aligned **parallel corpus**
- Difficult to maintain – no functionality to group according to domain

STUDENTS' CONFERENCE

Jožef Stefan International Postgraduate School
and Young Researchers' Day CMBO

19 and 20 April

- Large translation memory supposed to contain Legal, Finance and Marketing content
 - Create an ontology using OntoGen
 - Use ontology topics as class labels for classification of new content
