

FACING DEMOGRAPHIC CHALLENGES

Monday, Tuesday

31 presentations

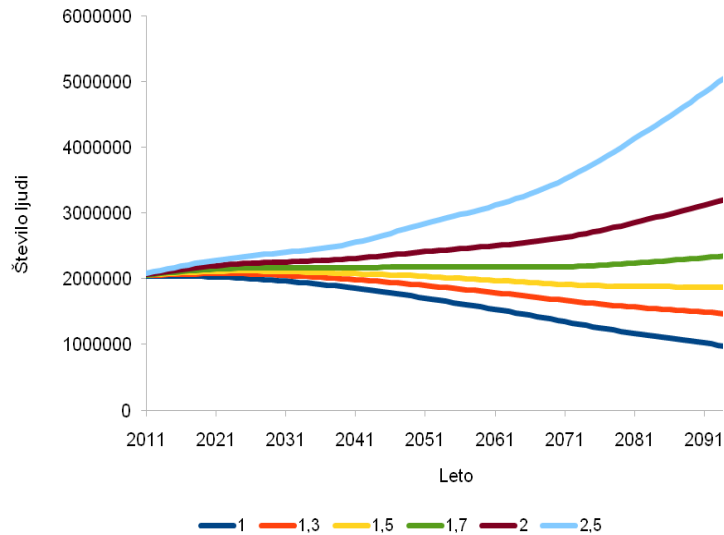

1 invited speaker

1 round table with political parties

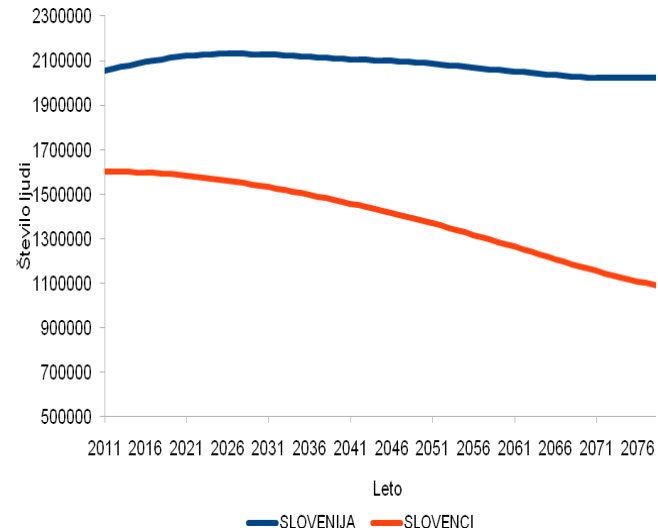

Janez Malačič,
Matjaž Gams

Projections

Slovenia
under 1-2.5
fertility and
migrations

Slovenia and
Slovenians
1.5 fertility, no
migration

Slovenia: Seemingly no problems in Slovenia due to high migration, in reality very low fertility leading to extinction of Slovenians

Europe: European demographic winter – relations similar to Slovenia

World: With fertility 2.5 and falling, growth to 10 billion, then ??;
fast growth in sub-Saharan Africa
