Semantic Technology to power the multi-lingual job market

Extract! and other Textkernel HR products

Jakub Zavrel, CEO, Textkernel, <zavrel@textkernel.com>

Barriers in Recruitment

Candidate : Why do I have to jump through so many hoops when I apply for a job?

Recruiter : Why is it so hard to search, attract and capture the right candidates?

Organisation: Am I using the full potential of my candidate database and other sources? How can I get more out of my marketing budget?

Extract! – CV Parsing product

Capturing candidate profiles

90-95% correct

- Textkernel reverses the traditional application process: Extract information from the CV, pre-populate the application form
- Save up to 90% time in processing CV's into recruitment systems
- Easy aggregation of searchable information without the data entry

Roadmap for next years

- Sell Extract, Jobfeed and Search & Match across Europe
- Continue 30% revenue growth
- Match people to jobs on a large scale based on a deep understanding of skills, experience, preferences, and culture
- Learn from feedback
- Make the European multi-lingual labor market transparent for organizations and job seekers
