Freight Forwarding Services

Automotive Logistics
Industry and Production Logistics
Retail and Distribution Logistics
Port Logistics
Automotive Logistics

Plant logistics in Resende (Brasil)
Logistics Center Bremen
Heat an corrosion treatment in Bremen
The core elements of BLG Logistics solutions:

- Operative best case processes
- Individual tailormade IT-Solutions
- Process- / Cost Management
Planning and navigation of logistics processes:

- Creating processes
- Controlling processes
- Assuming responsibility
- Creating trust
The logistic service provider needs:

• Flexible working time schedules

• Access to flexible Tariffs for different work scopes
Logistics as a way of lowering costs:

• Changing fix costs into variable costs
• Transfer of Volume risks to LSP
• Transfer of Liability to LSP
Thank you very much for your attention
