19 March 2014
Smart City Wien – the online city

- 3rd place: Smart City (EU)

- 5th place of online cities worldwide
  - Facebook, Twitter, Google+: Vienna is among the world’s top cities in terms of online communication with its citizens.

19 March 2014
Our mission
Customer orientation and administrative efficiency

“The data should move – not the people.”
Michael Häupl, Mayor of Vienna, 1995

“Our key criteria are the needs, demands and expectations of our citizens – the way they like, assess and accept the services of the City Administration.”
Ernst Theimer,
former Chief Exec. Director of the Vienna City Administration, 1995

“We must permanently reassess our services: are online forms user-friendly and can they be processed without media disruptions?”
Erich Hechtner,
Chief Exec. Director of the Vienna City Administration, 2010
ICT Vision

- Vienna endorses Open Data.
- Vienna is visible as an “Open Government Data City”.
- Vienna is committed to “Open Politics”.
- Information and communications technology supports the modern and innovative administration processes in the City of Vienna.

Sandra Frauenberger, Executive City Councillor, February 2013
The Vienna Open Government Initiative

223 data sets and 136 applications show the success of the Vienna Open Government Initiative

Re-launch 1 August 2013
Für eine offene Stadt
Open Government Wien

Toilet Map Vienna

- Augmented Reality
- Contains geographic coordinates of all public toilets in Vienna
- Since v2.0 also includes locations of dog poop bag dispensers
- Based on the underlying topographic map of the City of Vienna (multi-purpose map)
- Locates the (barrier-free) toilet closest to user’s current location

Seamless Cities App Camps winner 2014

19 March 2013
Evaluating the implementation of the City of Vienna OGD Strategy

https://open.wien.at/site/mut-zu-neuen-wegen/
Core evaluation results: benefits of OGD

- Businesses: OGD is an additional resource evaluated on a case-by-case basis
- Science and research: secure and dependable data source for statistical evaluations and visualisations
- Journalists: potential for “disclosures”
- Application developers: interested in technical challenge
- Added value for Vienna (100 applications, Oct. 2013)
  - Average: 68.6 programming hours
  - Assumed added value for Vienna EUR 550,000.-

Summary
Exchanging experience with the community
