opencourseware.eu with the support of the Lifelong Learning Programme of the European Union
• Automation
  – The computer network acts on the content, it plays a role in content selection
  – Information selection through metadata (tags): Resource Description Framework
  – >> Rich Content

• Socialisation of the web
  – The web connects people. It allows peer-to-peer knowledge development
  – Information selection through the social network, e.g. social bookmarking
  – >> Rich Use
Linked Data
