Outline

• Introduction
• Defining OER Policy
• Types of OER Policy
• Opportunities
• Conclusion
public policy is about solving public problems
How can policymakers leverage #OER as a solution to public problems?
Outline

• Introduction
• Defining OER Policy
• Types of OER Policy
• Opportunities
• Conclusion
Open Educational Resources (OER) are defined as teaching, learning, & research resources that reside in the public domain or have been released under an intellectual property license that permits their free use or re-purposing by others.

Free + Reuse Rights
“OER policies are laws, rules and courses of action that facilitate the creation, use or improvement of OER”
OER Public Policy

Criteria for our definition of OER public policy:

1. Policy is formally adopted by a governmental entity

2. Policy directly relates to OER
Policy Features

• **Forum**: the general system or level of gov’t in which the policy operates.

• **Scope**: the limits of the policy, incl. timeframe and to whom it applies.

• **Actor**: the entity responsible for formally adopting a policy.
Tweet-Sized Summary

“OER policy leverages #OER as a solution to public problems” @r2rc @txtbks #ocwglobal
Our perspective

• As we’re based in Washington D.C., we tend to be most familiar with North American policies

• The OER community in North America tends to place more emphasis on textbooks and course materials than those elsewhere

• We want to hear your perspective!
Outline

• Introduction
• Defining OER Policy
• Types of OER Policy
• Opportunities
• Conclusion
Types of OER Policy

Based on our review of OER policies, we identified four categories:

1. Licensing Policies
2. Resource Policies
3. Inducement Policies
4. Framework Policies
licensing policies

insert open licensing into existing systems that create educational resources
Program Summary

In 2009, the American Recovery and Reinvestment Act amended the Trade Act of 1974 to authorize the Trade Adjustment Assistance Community College and Career Training (TAACCCT) Grant Program. On March 30, 2010, President Barack Obama signed the Health Care and Education Reconciliation Act, which included $2 billion over four years to fund the TAACCCT program.

TAACCCT provides community colleges and other eligible institutions of higher education with funds to expand and improve their ability to deliver education and career training programs that can be completed in two years or less, are suited for workers who are eligible for training under the TAA for Workers program, and prepare program participants for employment in high-wage, high-skill occupations. Through these multi-year grants, the Department of Labor is helping to ensure that our nation’s institutions of higher education are helping adults succeed in acquiring the skills, degrees, and credentials needed for high-wage, high-skill employment while also meeting the needs of employers for skilled workers. The Department is implementing the TAACCCT program in partnership with the Department of Education.

Announcements

- **04-16-2014**: The Obama administration will award $450 million in grant funds to expand job-driven training partnerships between community colleges and employers. Grants are the final installment of a $2 billion, four-year initiative. Read the press release [here](here).
Erasmus+

The new European programme for Education and Training, 2014-2020

What are the next steps?

The Commission will provide funding for institutions working in this field through Erasmus+ and Horizon 2020. Projects funded through Erasmus+ will have an Open Access Requirement to their educational materials, meaning they must be made openly and freely accessible through open licences.

The Commission is preparing a European summit on Education through IT with the future Italian presidency of the Council.
52,681 DECREE OF 26 SEPTEMBER 2011

AVAILABLE ON COMPULSORY LICENSING OF INTELLECTUAL WORKS PRODUCED WITH EDUCATIONAL OBJECTIVES, TEACHING AND RELATED WITHIN THE MUNICIPAL PUBLIC EDUCATION NETWORK.

Gilberto Kassab, mayor of São Paulo, in exercise of the powers conferred upon it by law, WHEREAS the Municipal Education owns the copyright on the works produced by it whose use by third parties, provided that for purposes not business depends on your prior written authorization; CONSIDERING the need to regulate the municipal level, the dissemination of works prepared by that Department, and the conditions of its use and reproduction by third parties as a measure of public policy that seeks to ensure discipline and democratic access to educational and pedagogical content public nature, hereby decrees: Article 1 The

RCUK Policy on Open Access and Supporting Guidance

Compliance of Journals

RCUK recognises a journal as being compliant with this policy if:

The journal provides, via its own website, immediate and unrestricted access to the final published version of the paper, which should be made available using the Creative Commons Attribution (CC BY) licence, and allows immediate deposit of the final published version in other repositories without restriction on re-use. This may involve payment of an ‘Article Processing Charge’ (APC) to the publisher.

Or,

The journal consents to deposit of the final Accepted Manuscript in any repository, without restriction on non-commercial re-use and within a defined period. No APC will be payable to the publisher.

In this latter case, in STEM disciplines, RCUK will accept a delay of no more than six months between on-line publication and the final Accepted Manuscript becoming Open Access. In the case of papers in the arts, humanities and social sciences (which will mainly be funded by the AHRC and the ESRC), the maximum embargo period will be twelve months. Where funding for APCs is unavailable to an author during the transition period, longer embargo periods will be allowable (see section 3.6).

For further details on:
- APCs: section 3.5
- Embargos: section 3.6
- Licences: section 3.7
- Repositories: section 3.8
- Accepted Manuscripts: section 3.9
- Transition period: section 3.10
resource policies allocate resources directly to support creation, use and improvement of OER
Open Educational Resources

As the Common Core State Standards for English Language Arts and Mathematics are implemented, school districts will be looking for instructional material to meet the new standards. Open Educational Resources (OER) may help fill that need.

OER are free and openly licensed educational materials that can be used for teaching, learning, and research. In April 2012, the Washington State Legislature passed bill HB2337 (RCW 28A.306.803), directing the Office of the Superintendent of Public Instruction to create a collection of openly licensed courseware aligned to the common-core standards and an associated awareness campaign to inform school districts about these resources.
inducement policies call for or incentivize actions to support OER
SF 1236 3rd Engrossment - 88th Legislature

Five percent of the fiscal year 2015 appropriation in this subdivision is available in fiscal year 2015 when the Board of Trustees of the Minnesota State Colleges and Universities (MnSCU) demonstrates to the commissioner of management and budget that the board has met at least three of the following five performance goals:

(4) by 2014, MnSCU must collect data on the number of Open Educational Resources (OER) tools and services offered and formulate a plan to actualize a one percent reduction in expenses directly related to the cost of instruction incurred by students; and
(5) reallocate $22,000,000 that became available through expense realignment in fiscal year 2014.
Sixty-third Legislative Assembly of North Dakota
In Regular Session Commencing Tuesday, January 8, 2013

HOUSE CONCURRENT RESOLUTION NO. 3009
(Representatives Beadle, Heilman, N. Johnson, Sanford, Mock)
(Senators Flakoll, Miller)

A concurrent resolution directing the Legislative Management to study the use of open textbooks in the North Dakota University System, including options to develop partnerships with other states to use open textbooks.

WHEREAS, a North Dakota University System student pays an estimated average of $1,100 per year for academic course textbooks; and

WHEREAS, high textbook costs create a financial burden for students to attend a higher education institution which may limit student access to higher education; and

WHEREAS, open textbooks are published under a license that enables students to obtain free or low-cost versions of electronic or printed academic textbooks; and
Sixty-third Legislative Assembly of North Dakota

Introduced by

Representatives Beadle, Hellman, N. Johnson, Looyen, Sanford, Mock, Ovens

Senator Flakoll

1. A concurrent resolution urging the State Board of Higher Education and faculty members of
North Dakota University System institutions to increase the use of open textbooks for academic
courses in order to reduce the financial burden to higher education students.

WHEREAS, a North Dakota University System student pays an estimated average of
$1,100 per year for academic course textbooks; and

WHEREAS, high textbook costs create a financial burden for students to attend a higher
education institution which may limit student access to higher education; and

WHEREAS, open textbooks are published under a license that enables students to obtain
free or low-cost versions of electronic or printed academic textbooks; and

WHEREAS, the use of open textbooks can significantly reduce higher education costs for
students which increases student access to higher education; and

WHEREAS, the use of open textbooks among all North Dakota University System
institutions and other states’ higher education systems for common core courses may result in
efficiencies reducing state costs related to higher education;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF
NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-third Legislative Assembly urges the State Board of Higher Education and
faculty members of North Dakota University System institutions to increase the use of open
textbooks for academic courses in order to reduce the financial burden to higher education
students; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution
to each member of the State Board of Higher Education, to the Chancellor of the North Dakota
University System, and to each North Dakota University System institution president.

dress the issue of textbook affordability.
framework policies create pathways or mitigate barriers for action to support OER
Memorandum of Understanding

Open Educational Resources

This Memorandum of Understanding is effective as of March 13, 2014

Between:

Alberta Ministry of Innovation and Advanced Education
As represented by the Premier of Alberta
(“Alberta”)
LAW OF THE REPUBLIC OF INDONESIA
NUMBER 12 YEAR 2012
ON
HIGHER EDUCATION

WITH GOD’S MERCY
PRESIDENT OF THE REPUBLIC OF INDONESIA,

Considering:

a. That the 1945 Constitution of the Republic of Indonesia mandates that the Government develop and implement a national education system to improve faith, devoutness and morals in the framework of developing the intellectual life of the nation and advancing science and technology by upholding religious values and national integrity for better civilization and welfare of mankind;

b. That higher education as part of the national education system plays a strategic role in developing the intellectual life of the nation and advancing science and technology by taking into account and applying the sustainable humanities and cultivating and empowering Indonesian people;
Overlap of Policy Types

• Governments can have overlapping OER policies that span multiple categories & interoperate

• Example: MoU between Canadian provinces is a framework policy, but the individual province’s policy to support the creation of OER would be a resource policy.
Outline

• Introduction
• Defining OER Policy
• Types of OER Policy
• Opportunities
• Conclusion
Licensing Policies

• Most clear opportunity – uses existing systems to generate OER
• All governments fund educational resources at some level, so can adopt licensing policies
• Opportunity to extend beyond education into research, data, etc.
• Capitalize on momentum for policies on Open Access and Open Data
Resource Policies

• Can be challenging where funding is scarce, but can be strategic:
  • Opportunity to pool resources to develop OER everyone can use
  • Provide funding to fuel sustainable business models
  • Support adoption (equally imp
t.)
Inducement Policies

• Opportunity to leverage existing resources or authority
• Can be low-overhead way to advance OER, as a first step
• Particular opportunity around performance-based funding
Framework Policies

• Broadest category, broadest opportunity
• Frameworks for collaboration between countries for maximum benefit
• Remove barriers or change existing structures like tenure & promotion
Outline

• Introduction
• Defining OER Policy
• Types of OER Policy
• Opportunities
• Conclusion
Conclusions

- Public policy can leverage OER as a solution in a wide variety of ways
- Policy changes can advance OER as a solution
- Actions and opportunities exist at all levels of government
- Advocates should choose the type or types of policies to pursue strategically
