International Conference on Paperless Freight Transport Logistics 10-11 May 2011, Munich, Germany

Welcome message

It is my great pleasure to welcome you to e-Freight 2011, the brand new conference on Paperless Freight Transport Logistics in a multimodal context, and to lively Munich. We have a strong vision to make this conference the place to be in the exciting research area of information exchange on planning, executing and reporting for multimodal freight transport and logistics.

Key Note Speakers

Pawel Stelmaszczyk
Head of DG for
Mobility and
Transport
European
Commission

FREIGHT

Thank you!

Mary Vayou, BMT Group Ltd

e-Freight along the global supply chain: Round Table discussion with hands-on sector representatives

Initial questions to be discussed within the round table:

1. **Interoperability: what it means, is it achievable?**
2. **Single Transport Document: deployment and liability issues**
3. **Single Windows: experience and foreseen future.**
4. **Which role does semantic technologies play for Interoperability?**
5. **How does the Internet of Things contribute to Supply Chain Transparency?**
6. **Potential of Cloud Computing for Information Supply Chain Optimization**
7. **Which role does Intelligent Cargo play in the future?**
