

European Data Forum 2013

The European Data Value Chain stakeholder platform

Francesco Barbato
Project Officer
DG CONNECT G3 – Data Value Chain

Dublin, 09/04/2013

Who we are

- European Commission
 - Directorate General for Communications Networks, Content and Technology
 - Directorate Media and Data (G)
 - **Data Value Chain Unit (G3)**

What do we do (in brief!)

- **Supporting research and innovation**
FP7 and H2020
- **Advancing the Commission's open data policy**
PSI Directive
- **Creating the basis for pan-European portals**
EU Open data portal
- ***Developing a strategy for the European data value chain***
to boost the emerging European data industry

We are developing a EU data value chain strategy towards...

- the creation of a coherent European data-ecosystem (still missing)
- synergies between the different activities and policies promoted by the Commission (data is everywhere)
- establishing the pre-conditions for the free flow of large amounts of data throughout Europe, and to the empowerment of individuals in dealing with their personal data.
- Get the best results out of R&D, and transfer them to the real economy (innovation)

AND

We are setting up a way for getting input from industry on policy and technology issues relevant for the data value chain and for shaping up the data ecosystem

We want to hear from you!

- Let's start from here
